CONSTITUENT CORRESPONDENCE, 1972-1983.

22 cu. ft. and 51 reels of microfilm

Storage is off-site; contact the Utah State Archives to order.

DESCRIPTION: This series includes letters to the Governor's office from Utah citizens and others who are presenting their opinions on various topics (some of which are controversial), requesting action by the Governor or the State on various issues or situations, or simply requesting information or souvenir items from the Governor's office. In addition to the incoming letters, this series includes responses from the Governor's office and detailed written telephone messages from the Governor's HOTLINE telephone system. Various issues represented in this correspondence include the controversy over the Oral and Total Communications programs at the Utah School for the Deaf in Ogden, energy shortages and energy assistance payments, welfare, the Equal Rights Amendment and International Women's Year, possible closure of the Geneva Steel industrial plant, highway safety, Medicaid and Medicare, and, especially notable from 1979-1981, income and property taxes. Topics listed in the series description as a state agency most often contains correspondence that was referred to that division, department, or agency for either a direct reply or a draft of a reply for the Governor's signature.

The Governor responds to much of the correspondence and often his response has been scripted by the state agency appropriate to the complaint or request. In addition, a significant portion of the outgoing correspondence in this series was written and signed on behalf of the Governor by his office staff. Staff represented in this series includes the administrative assistant for constituent services, Dolly G. Young; administrative aide, Anna Marie Marchesi; executive assistant, Michael N. Graham; administrative assistant for constituent services, Beth S. Jarman; administrative assistant for constituent services, Sherry Bassett; administrative assistant for community relations, Julia Fowler Biebau; and administrative assistant for media relations, Michael Youngren.

ARRANGEMENT: This series is arranged alphabetically by initial letter of correspondent's surname, topic, or state agency. Folders may be further broken down chronologically by day.

RELATED RECORDS: Researchers may wish to consult Series 4087, **HOTLINE RECORDS**, for additional transcripts of telephone messages received by the Governor's office via the Hotline system. For general incoming and/or outgoing correspondence from Governor Matheson's office, refer to Series 4468, **CORRESPONDENCE**, Series 4466, **OUTGOING CORRESPONDENCE**, and Series 4532, **STATE AGENCY CORRESPONDENCE**. Materials relating to MX missiles, Weteye bombs, the Sagebrush Rebellion, and other "hot-button" issues not included here, may be found in Series 1646, **MX MISSILE RECORDS**; Series 4247, **GOVERNOR'S MX MISSILE CORRESPONDENCE**; Series 19161, **NATURAL RESOURCES WORKING FILES**; Series 4470, **RADIATION RECORDS**; and Series 19410, **WETEYE NERVE GAS BOMB RECORDS**. These series contain small amounts of constituent correspondence as well as general materials regarding these issues.

PROCESSING NOTE: This series will be microfilmed and the hard copy will be kept because of the intrinsic value of the papers. It was processed by Kira Robertson in August 2001.

PREFERRED CITATION: Cite the Utah State Archives and Records Service, the creating agency name, the series title, and the series number.

GAPS: Records from 1983 are extremely minimal in this series; this gap may even have begun as early as November 1982. There are no records from 1984 to 1985. These records may have been inter-filed with other correspondence series within Matheson's records.
